CAREER OBJECTIVE

"To pursue a career within an organization that fosters continuos learning and development oppurtunities,leveraging machine learning advancements to drive both personal growth and contribute to the organization's prosperity."

EDUCATIONAL DETAILS

B.Tech-Artificial Intelligence And Machine Learning 9.6 Till Date

SRM Institute of Science & Technology
2024-2028

Board of Intermediate 877/1000

Narayana Junior College 2022-2024

Secondary School Certificate 535/600

Sri Chaitanya Educational Institutions
2021-2022

TECHNICAL SKILLS

PROGRAMMING

- Python
- Java Programming

TOOLS

- TABLEAU
- POWER BI

DATABASES

- MYSQL
- MONGODB

TECHNOLOGIES

- HTML ,CSS
- Machine Learning
- NLP

PROFESSIONAL SKILLS

- Problem solving
- Quick Learner
- Adaptability

ACHIVEMENTS

- Captain for Kabbadi team SRM
- Inter state cricket tournament Winners.

PROFESSIONAL EXPERIENCE

FUTURE INTERNS VIRTUAL INTERNSHIP

FUTURE INTERNS (1/2026- 03/2026)

During my internship at Future Interns, I gained practical experience in Machine Learning by working on real-world projects involving data preprocessing, model development, and performance evaluation. I enhanced my problem-solving and analytical skills while applying machine learning concepts and industry-relevant tools to develop effective AI solutions.

BHARAT INTERNSHIP

BHARAT INTERN (07/2026- 0/2026)

During my internship at Bharat Intern, I gained valuable web development skills, focusing on creating intuitive and user-friendly interfaces. I learned to design and implement features that enhance the overall user experience and applied these skills while developing projects assigned by the company.

PROJECTS

Advanced Fake news Detection Through NLP

Achieved effective fake news detection through NLP, employing advanced text analysis techniques to discern misinformation from authentic content, we have used Naive bayes Classifier and got an accuracy of 91.36 Percent.

A Tech driven Sustainability Advocate for Farming

This krishi is an Tech-Driven project integrated with the machine learning designed to manage damnd and supply and there by preventing loss for farmers.we have used Random Forest Algorithm and got an accuracy of 89.34 percent.

CERTIFICATIONS

- NPTEL Databases Management System
- Python in HACKERRANK
- Accenture (Introduction to Machine Learning)
- CORE JAVA in Great Learning
